Brussels, Belgium · [linkedin.com/in/joão-rafael-avansini-baião](https://www.linkedin.com/in/joão-rafael-avansini-baião) · [joaorafaelavancinibaio4@gmail.com](mailto:joaorafaelavancinibaio4@gmail.com)

## PROFESSIONAL SUMMARY

---

A detail-oriented, meticulous, and analytical student with a bachelor's degree in AI and machine learning management at UBI/Middlesex University. Possesses practical experience in cybersecurity, data analytics, and Python. Proficient in the development and supervision of machine learning initiatives, which include real-time intrusion detection systems and threat-hunting tools. An individual who is highly analytical and has a fervor for utilizing technology to address intricate issues and improve digital security. A growing interest in blue team cybersecurity and AI-driven solutions, as well as experience in collaboration, research, and innovation strategy.

## EXPERIENCE

---

### Solutions Engineer - Internship

Feb – Jul 2026

Microsoft · Brussels, Belgium (Hybrid)

- Designed and deployed AI agents in M365 Copilot Studio and Power Automate, automating enterprise workflows and reducing manual processes for client organisations.
- Delivered technical demonstrations and webinars to enterprise clients in the education sector, driving M365 Copilot adoption across institutional accounts.
- Contributed to architectural design sessions and client-facing solution proposals, bridging technical capability with business requirements.
- Lead and presented technical initiatives with Copilot chat and Copilot studio for external partners such as PwC, KPMG, Avanade, and EY

## EDUCATION

---

### Bachelor's in Management of AI & Machine Learning

2023 – 2026

UBI / Middlesex University · Brussels, Belgium

- Relevant modules: Machine Learning, Database Management, Data Science, Neural Networks, Project Management, Business Analytics, AI in Business, FinTech & Blockchain.
- Final-year project: Business consultancy plan focused on enterprise adoption of Microsoft responsible AI governance tools in Europe, which I developed a AI scorecard solution (SaaS) for GRC and auditing for SMEs.

## PROJECTS

---

**AI Agent – LLM Output Capture Tool** — Developed an AI-powered agent to capture, store, and organise outputs from LLM interactions, integrating prompt engineering and REST API integration.

**Prompt Injection Simulator** — Built an interactive educational simulator demonstrating six AI security attack types, covering Direct, RAG, and Agent attack categories against a Claude-backed LLM, with toggleable defence mechanisms and session logging. Implemented a detection layer using TF-IDF and Logistic Regression trained on the **deepset/prompt-injections** HuggingFace dataset, with a roadmap toward DistilBERT fine-tuning and SHAP explainability in subsequent phases.

**Pretexting Script Generator & Red-Team Evaluator** — Built an AI-powered security training tool using a dual-LLM architecture where one model generates realistic pretexting scripts targeting corporate personas (IT helpdesk, HR, executives) and a second acts as a red-team analyst, scoring each script on plausibility, psychological tactic, risk level, and detection likelihood. Outputs are scoped exclusively to security training scenarios through a responsible AI framework enforced at the system prompt level.

## SKILLS

---

**AI & Automation:** M365 Copilot Studio · Microsoft Power Automate · Azure AI Foundry · Power Platform · Prompt Engineering

**Programming & Data:** Python · MySQL · DBeaver

**Cloud & Security:** Azure · AWS Cloud · Microsoft Entra ID · AWS IAM (Identity Access Management) · Nmap, Wireshark · API security · Splunk

**Interpersonal Skills:** Teamwork & Collaboration · Communication · Conflict Resolution · Leadership

## CERTIFICATIONS

---

**CompTIA:** Cybersecurity Analyst (CySA+) · Security Analyst (Security+) · Artificial Intelligence Security Analyst (SecAI+) · Network Administrator (Network+)

**Massachusetts Institute of Technology:** Applied Generative AI for Digital Transformation

**AWS:** Cloud Foundations · Cloud Security Foundations

**Microsoft:** AZ-900 (Azure Fundamentals) · AB-900 (Copilot and Agent Administration Fundamentals)

**Center for Language and Education Cooperation (CLEC):** HSK 1 & HSK 2

## LANGUAGES

---

Portuguese (Native) · English (C1) · French (B1) · Spanish (A2) · Chinese (A2)
